3649D

A circular inset showing a close-up of a black metal component, labeled 3649D. It is a curved bracket with a circular hole at the bottom and a flange at the top.

3649C

A circular inset showing a close-up of a black metal component, labeled 3649C. It is a curved bracket with a circular hole at the bottom and a flange at the top, similar to 3649D but with a slightly different flange shape.

3643E

A large black metal component, labeled 3643E, which is a long, horizontal bracket with a central circular hole and four slanted slots on each end. Two black arrows point from the circular insets above to the top of the main component, indicating where parts 3649D and 3649C are installed.
